**Subject:** Re: Main Residence Cascading Stairs

warwick, again,, these are not usefull at all,, the entire road to the water and connenction to the library needs to be included,, the stairs lead to what . grass.. is that what terraces down,, I need a plan that shows a holistic view of the back.. like the pool small sections that do not take into account for example the other side of the road and the topo , need to be redone. thanks,, i know this is frustrating,

Jeffrey,

These sketches show the cascading stairs pushed further north. We show a small landscaped feature area at the bottom, about 7' above the road, to maintain the view north, with minimal road view. We also show the main residence per the current design, maintaining the same connection as before.

Thanks,

Warwick
