**Subject:** STT fuel

Jeffrey,

Cecile told me that Cleo wants to speak to me about Hancock's fuel price, he's fed up with \$6.75 price he is paying,. he is the guy that has the messy hanger to the east of Air center's hanger,.my guess is Nicolas told him we are frustrated also,.

I / we have to be careful since Nicolas wants "IN" on our fuel truck deal, I told Nicolas it would not be possible since this fuel is for our own consumption if we are granted ramp access.

Nicolas/Air Center never offers us a discount when we use their helicopters, but he's always looking for a hand out! Nicolas has offered us a key to his hanger, if we include him in fuel deal, so we would be able to gain access to ramp for late arrivals if Hancock closes the door to us..

A possible scenario, If / when we get ramp access for our own fuel truck, we could use LSJ barge and acquire fuel from St, Croix at Bolhke,. just a back up idea, our last purchase in St,Croix was \$3.76 in Helicopter,. our current fuel price with Hancock is \$4.84

I will Call Cleo and listen to what he has to say,..

Thanks,

Larry
