Hi Philippe,
Just checking in to see when we can expect to receive a quote from you to do the suggested work at Mr Epsteins apartment.

Thank you,

OK, but you don't really answer my question :

I understand the 65" for your bedroom + Wireless HDMI

For the other screens, do we do the same, or use old analog cables, or put
B&O TV with bluray dvd included

Thanks for your answer

1. We
change
the TV
and DVD,
but we
still use
analog
cable (it
will
still be
good
quality)

2. We
use
wireless
HDMI
transmitt
er
(approx
1000€), I
think it
worth it
for home
theatre,
but maybe
not for
guests
bedroom

3. We
use B&O
TV with
bluray
dvd
included.
Yes it is
more
expensive
than
other,
but more
beautiful
too.

Everything in one box. Only one remote control. 14000 € / each 40'' inches. For your bedroom we could go up to 55 inches if you want.

Hi Philippe,
Jeffrey's comments are as follows:

"no sonos in guest rooms,.. use only mac for music storage, no server.. why can we not run new cables? I will need to hear the new speakers but sounds

like a good idea"

Dear [REDACTED],

We went to Mr Eptein's apartment last week and made a complete overview of the system.

Before finalizing the estimate we would have a few question, could you please transmit them to Mr Eptsein.

Music

Sonos system is really the best because it can work wireless. We counted all the zone where you already had an audio access keypad. But in some bedrooms there are small hifi systems.

Do you also want to replace them by sonos. Or maybe later ?

Do we use the music stored on you mac (it means it has to

be on to listen
to music, or do
we propose a
standalone
server (1500 €)
?

For the
speakers, the
small JBL that
are on the
floor in the
living room and
office look
very small for
those rooms.
Would you like
us to propose
Floor standing
speaker (like
B&O, because
good sound and
good looking)

Home Theatre

Since we can't
run any new
cable we'll try
Wireless HDMI
on the new
projector. So
we will also
have to change
: DVD,
Receiver,
Screen (for a
16/9)
We'll use your
ipad to control
It

No question
about the home
theatre

**Guest bedrooms
+ Master**

Cables between
TV and DVD are
poor.
Impossible to
run new cables
so 2 options :

1. We
change
the TV
and DVD,
but we
still use
analog
cable (it
will
still be
good
quality)
2. We
use
wireless
HDMI
transmitt

Everythin

one
remote

go up to
55 inches

Let me know
what you prefer

Thank you for
your answers it
will allow me
to finish the
estimate
