Jeffrey, we have no choice on the corroded parts: thx larry

Larry,
Now for the bad news guys,

We also need the attaching hardware that is corroded

Here is the estimated pricing

Attaching pins for the gear

4ea Estimated \$10,500.00

2 ea Spindle Pins \$26,390.00

Est. Total \$36,900.00

I will have Jason follow up with a work authorization, please let me know if you are good with ordering these.

Regards

Jet Aviation St. Louis, Inc.

I also received rental pricing

Estimated \$8,000.00 per leg \$125.00 per flight hour.

If we decide today to go exchange or rental and get the gear tomorrow, we could probably get you out of here by Friday evening, Saturday morning.

I also need to double check on the usability of the gear they are quoting. I believe you should have 3 series gear and they only have 4 series. I need to make sure we can use that.

Let me double check on the rest of the items to make sure something else isn't holding us up.

Regards

Jet Aviation St. Louis, Inc.
