Subject: GII update

Jeffrey,

Here is the news:

repair on one gear leg will be completed and arrive Midcoast on Saturday noon.
The other gear will take 5-6weeks to repair, so rental gear is best option for
other side, plus we can have loaner gear exchanged in NY area once repair to our
gear is complete,. See email below,

Doesn't make sense to go the overhauled exchange gear since its 75k for exchange
unit and 43k for rental and repair,.

ALSO there is a chance for additional cost when they repair our gear leg, if its
beyond limits we may be forced into exchange,. Gulfstream is offering a deal on a
NEW gear leg with NO Bill back cost for \$93.5k original price is \$125K for new
part,.

Your thoughts?

Looks like Monday evening we would be return to service, (ESTIMATE) gut tels me
Thx

Larry
