if the living room is at 42 6,, then the spring line would be at 62 6 ,, 3 feet about the terrace,, the drawing does not reflect that

Sorry, it took us a little longer to get this out. First pass at the scheme with the main terrace at +44'. Has the living room at +42'-6" – same as the master bedroom. We are also working on a version that raises the main terrace and living room to +47', and has some low walls in front of the living room to divide up the space.
