Hi Catherine I know its been years since I ran into you at The Palace event for Aidan Barclays Charity. I am so glad you have become a mom and have a world famous husband...I am writing you because many years ago I was in an emotional meltdown and there was one person who helped me more than anyone .I could say he probably saved my life.It wa sJeffrey Epstein yes the same man who was in the mess with the young woman in Florida.I dont know that part of him as we were friends for 30 years and I was always married except for 5 of those years.If at anytime your husband would like to get the other side of this mans character I would be more than happy to talk to him.My wife and I Somers would be more than thrilled to see you both in NY [REDACTED]
[REDACTED] Thank you for reading best to you both Jonathan farkas
