yesterday evening i saw the booker Laure, she works at Metropolitan and United from Geneve.

she said its good idea to create the company i want, she want to do scouting also and my company beside other activity can place the models to model agencies as a mother agency.

[REDACTED] (Fashion consulting&event management ) name of my company. Monday at 11h one accounting company will tell me exactly how long will take to create it and how much they want every month to take care of this.

I counted everything, no people to hire, just office 1500/month +some furniture 500+to create a company 1500+tel internet,carte and etc 500.

Total 4500-5000 to start.

money i will earn already in march, have buyers coming to buy collections 5-10 of march.This is fast, with models money earn is longer+ after want to add selling as an agent real estate in france to russians (or americans)

Where do you think i can find finance? Lets wait Leon? someone else can be interested? i dont want french investors.

p.s I prepare 2 for you ;) + coleen

kisses

Best regards,
