F,
Rumor has it that you'll be with a handful of scifi guys in the islands for a couple of days. sounds like fun. I hope it goes well. i always find these convenings are a little more interesting with a more interdisciplinary mix. Still game to do something on these with you. I've been doing them (as advisory boards) for clients and it's a blast.

And -- will you be in NYC later in the week? Would be fun to see you if you are... Otherwise, another time. Are you on the island for the holidays?

xoxo
