Subject: Model contest !
[Model search platform.pdf](#)

Jeffrey,

Anton proposed to make a Model contest in Russia,
it can be Miss of Russia, or Model of Russia or Model for Victoria Secret or Model of (another brand).

We can do it once every year.

He has a big experience in organisation of model contests.

This one we can organise for you.

It will be fun and interesting, we will pre-select all the top girls of all Russia (see a Model Search Platform in the attachment).

You can participate on every step of the contest and have an access to all pre-selection, votes, file and photos.

From this experience i will learn how to organize this type of event in Russia from A-Z

+ contacts with the brands (in case i ll decide to work for a while in Russia)

+ during this selection we will have tons of the girls besides 16 in final which will be a "Cream" for foreign Model agencies scouts and we can place them to the agencies.

Usually the price of the big Model contest in Russia like this is around 300 000\$ but Anton propose just 150 000 and the rest he will find the Russian sponsors to add. The final can be different, you will choose the final of contest from proposed to you versions. Ideally the time of contest is March, for this date we should start now if you say yes.

By the way, for the story of Daniel, for that agency i told you we wanted to create, i found a person who can be a director of this agency.

In Russia everything develop so fast, people moving , working compare to Paris...i think i need to come out from Paris to US or Russia really , people waisting here their time and money))

kisses
