the wall on the top of the librabry road, still looks too high, , the angle needs to be done at the end of the sprial lookds more like 20 degrees east of north.. not forty five. , the steps in the courtyard should be replaced on the entire step if it looks as obvious from the photo , that the far one only was replaced on the bottom step. , the grading behind cabana four does not look as if has been as redone as the eastern most part of the hill. , , the kitchen in the flagpole pool , refrig is still the same , no finsih cabinet, . no courtyard lights., i want a plan to retile the main pool, when will the big wind doors be ready? , there has been no grading in the area between the master and the library,, the western planter is still not touched,
