Hi Jeffrey,

[REDACTED] sent me some photos and I was hoping to get the names of the scientists in them. I only recognize Martin Novak. Could you ask her? I need to label the photos for the search engines.

also, if you go to any events, could you ask a person to take photos. we need as many as possible to replace the bad ones.

also, what is considered to be the most imminent threat to the Earth on the list discussed? could I ask Marvin Minsky? I'll draft a quick article on that. am rehasing an article also on the gravity conference.

I just sent more content to Leslie and cc'd you. will continue to do so.

hope you are well.

c
