Subject: GIV-SP Market Update

Hi Larry,

Hope you are well. When you have a chance, I think we should discuss with Jeffrey the status of the 727 deal.

Also, a quick update on the GIV-SP market. SN 1381 (the Abu Dhabi aircraft) is under contract at 11.5. SN 1305, a 6,000 hour 1997 model, is under contract at 10.25 on Corporate Care.

SN 1227, owned by Visteon, is by far the best buy on the low end of the market at 9.0M. SN 1355 is also a very good buy at 12.0M, a 1998 model with only 3300 hours. Overall, the market is still trading from 9.0 to 18.0.

FYI – We just listed the two Morgan Stanley GVs, both '02 models. Will be asking 27.0-28.0M.

I look forward to speaking with you later today.

Best Regards,

Don Bass
