Re: 5 Palms Quote Breakdown

Brice,

Per your request regarding my quote for work associated with getting power to the relocated helipad and on to the 5 palms cabana the following is provided.

- My quoted price of \$76,666.00 breaks down to \$54.76/foot.
- The final cost for the flagpole pool was \$49.91/foot.
- The difference between the two primarily being that two 200 amp, 208 volt services are included in the 5 palms and one 200 amp service with only a 50 amp service (info center) were included in the flagpole pool quote.

If you would like to establish a written scope of exactly what work is to be required then a more specific proposal can be provided. The bid you have in hand is based on verbal direction given by Gary Kerney and work completed at the flagpole pool.

I will gladly offer my time to do a walkthrough with you and put a defined scope in writing from which I can give you a more specific quote.

If you have any further questions please contact me at 340-344-4808.

Thank You,

Michael J. Glidden
