what is missing from the punch list is the allocation of priority. I see that though the gravel path was removed the grading is no where complete. and now the courtyard is being prepared for cement.. I want that area graded and hydroseeded . how will we get the trucks in to do it now . with the courtyard clean. ?? The priority is to have no more construction at the main compound seperate from the courtyard pour by the 21 st. Ion has been there for ten days, and the chillax bath has not started. ??
