Jeffrey,
How about Monday, November 28 to talk on the phone? What is a good time for you?

Dear Jeffrey,
I wanted to update you on our placebo initiative at Harvard.
I've been asked to start a Harvard-wide Program in Placebo Studies which will be hosted at the Beth Israel Deaconess Medical Center. It will do basic, clinical and social science research as well as scholarly work in placebo studies. We are situated in all the major teaching hospitals at

Harvard and have already drawn commitments from over 20 faculty. Anne Harrington will be joining us. We recently published an physiological study of placebo in the New England Journal of Medicine and a theoretical paper in Philosophic Transactions of the Roy Soc B. (I'm attaching fyi). We anticipate making some major breakthroughs in genetic of placebo effects (we're submitting our findings in the next days) and have major studies in the pipeline. We're hoping that this program will establish Placebo Studies as a important component of medical research internationally. Here is our new website:

www.programinplacebostudies.org. Let me know if this is of any interest for you.

Sincerely,

Ted

Ted ,, as you may know, I funded the Placebo work, with AnnHarrington probably fifteen years ago. I was one of the originals on the MBB committee, being best friends with Henry Rososvsky. then sent Ann to China , then more particle physics, dali lama, with Kosslyn.. What is a good time to call?

Woody, Thank you for the introduction.
Jeffrey, Whenever you'd like to talk....i talk placebo most of the time....tell me.
All my work and the work of my laboratory is about placebo effects and we

use a multi-
disciplinary
approach: basic,
clinical and social
science and
collaborate with
the humanities
(history, ethics,
etc.)

We published in
these areas and
have some
exciting studies in
the pipeline.

We can start with
a phone call or
whatever.

Your call.
best
