Subject: Re: 4 articles

Hi Tyler,

Yes. Could your team elaborate on the triple negative breast cancer topic? You can refer to the press release I did on this last Spring. Before publishing it, we will need to pass it by Mount Sinai's press office. They asked that I do that.

I'm working on the PED one while we wait for Ben and Seth to get back to me.

Thanks,

[REDACTED]

OK Great. I have supporting writers available - please advise if you would like any support there.

Hi Tyler,

I'm preparing 4 articles for ntl press and will send you abstracts on them asap.
They are:

- Icogs Lab in Ethiopia-- abstract sent. waiting for Ben Goertzel.
- PED/Nowak: Recent experiment done in sustainable cooperation. Published in Nature and NY Times OpEd.
- Seth Lloyd: current advances in quantum machine learning. waiting for Seth Lloyd to get back to me.
- Triple Neg Breast Cancer-- inhibitor discovered at Mount Sinai.
