Good morning Attorney Matthew,

I left you a voice mail this morning as Ms. Lewis said that you were not at your desk. At this point, this is really getting embarrassing. We are now at the point were you said that we would actually have the license in our possession. There has got to be something that your office can do to get Attorney Kleeger to complete the assignment that you gave him a month ago. Please call me back.

With warm regards,

Cecile de Jongh
