Jeffrey,
the weight of the wave runners are 728 lbs each, I'm concerned there would be damage to the waverunners or midnight express boat if I secured one runner to bow of boat and the other in rear of boat, there is not enough room to secure safely in my opinion, plus the logistics of loading them into the boat. I would need a small crane .,the runners are 11 feet long and the beam of midnight is 9' foot 8 inches at the widest location.,
Emad estimates \$700 to \$800 max total to ship each waverunner separate from midnight.
is this OK to ship separate?
thx,
Larry
