FYI I'm not sure you are done with the crusher til we meet on the wind down, but I think we could loan it for a while while we decide on its future.I'll talk to them next week.

Gary Kerney [REDACTED]

Thanks for the call just after speaking with Brice earlier. See email below with contact numbers. As we discussed, it would be best to schedule to review the equipment next week, weather permitting. With respect to the rock crusher you explained that it is in near new condition and is an attachment to a track hoe, purchased in Europe, and may be available to loan.

Thanks for your time.

Importance: High

Brice Gordon [REDACTED]

Thanks for the time to briefly talk today regarding review of the equipment that you may have available on nearby Little St. James Island as per Mr. Epstein's earlier email with Mr. Branson attached below. As we discussed, you would like to coordinate review of what you may have available with an onsite meeting next week depending on the weather and the passing storm. As you are aware, there is keen interest in the rock crusher. Can you advise on its availability and specifics of the equipment or cost if it would be available?

The contacts for KMI are Craig Noblett [REDACTED] and Tony Monaghan [REDACTED] who are copied on this email.

Robert,

I made contact today with the general superintendent, Tom Melnick, for Little St. James (who is copied on this email) and he will be reviewing in the coming week what equipment may be available. As discussed, we expressed special interest in their rock crusher. We hope to learn more soon.

Thanks,

Mike Kraus

Dear Robert and Richard

We will be winding down construction over the next several weeks. As you get your program together please do not hesitate to contact us, and if possible visit Little St.James and see if any of our equipment would fit your Island needs. We haven't put together the list of excess equipment as of today, will forward as it does.

Both Brice ,island manager [REDACTED], and Gary [REDACTED] are pleased to help and are available to confer anytime.

Gary

Dear Jeffrey,

Thank you for your email to Richard and for your offer of assistance on the rebuild of the Great House on Necker.

Could I ask what type of construction equipment you have that may be available? We are still working through the plan of the rebuild, but once we have some more detail about what equipment may be required then we may very well be in touch at that stage?

We do however really appreciate you taking the time to contact us and your support means a great deal to all involved.

Kind Regards,

Rob

Dear Jeffrey,

Many thanks as always. Will pass this through to Rob Aquadro and Richard Morris who are overseeing the re-construction.

Best,

Richard
