DOMINIQUE STRAUSS-KAHN ARRESTED, NOT BECAUSE HE RAPED A MAID, BUT BECAUSE HE HAD EVIDENCE US HAS NO GOLD IN FORT KNOX.

A startling story published by the European Union Times, could be the one of the worlds biggest conspiracy theories, a plot for a movie or a frightening scenario for the U.S. and world economy.

Dominique Strauss Kahn

According to the on-line publication a new report prepared for Russian Prime Minister Putin by the Federal Security Service (FSB) says that former International Monetary Fund (IMF) Chief Dominique Strauss-Kahn was charged and jailed in the US for sex crimes on May 14 after his discovery that all of the gold held in the United States Bullion Depository located at Fort Knox was missing and/or unaccounted for.

According to this FSB secret report, Strauss-Kahn had become increasingly concerned earlier this month after the United States began stalling its pledged delivery to the IMF of 191.3 tons of gold agreed to under the Second Amendment of the Articles of Agreement signed by the Executive Board in April 1978 that were to be sold to fund what are called Special Drawing Rights (SDRs) as an alternative to what are called reserve currencies.

This FSB report says that when Strauss-Kahn raised his concerns with American government officials close to President Obama he was contacted by rogue elements within the CIA who provided him firm evidence that all of the gold reported to be held by the US was gone.

Upon Strauss-Kahn receiving the CIA evidence, the report said, he made immediate arrangements to leave the US for Paris, but when contacted by agents working for Frances General Directorate for External Security (DGSE) that American authorities were seeking his capture he fled to New York Citys JFK airport following these agents directive not to take his cell-phone because US police could track his exact location.

Once Strauss-Kahn safely boarded an Air France flight to Paris, the FSB report says, he made a fatal mistake by calling the hotel from a phone on the plane and asking them to forward the cell-phone he had been told to leave behind to his French residence, after which US agents were able to track and apprehend him.

Within the past fortnight, the report continues, Strauss-Kahn reached out to his close friend and top Egyptian banker Mahmoud Abdel Salam Omar to retrieve from the US the evidence given to him by the CIA. Omar, however, and exactly like Strauss-Kahn before him, has been charged by the US with a sex crime against a luxury hotel maid, a charge the FSB labels as beyond belief as Omar is 74-years-old and a devout Muslim.

In an astounding move puzzling many in Moscow, Putin after reading this secret FSB report ordered posted to the Kremlins official website a defense of Strauss-Khan becoming the first world leader to state that the former IMF chief was a victim of a US conspiracy.

One of the United States top Congressman, and 2012 Presidential candidate, Ron Paul has long stated his belief that the US government has lied about its gold reserves held at Fort Knox. And in 2010 put forward a bill force an audit of them, .The bill was defeated, but which was subsequently defeated by Obama regime forces.

When directly asked by reporters if he believed there was no gold in Fort Knox or the Federal Reserve, Congressman Paul gave the

incredible reply, I think it is a possibility.

Also interesting to note is that barely 3 days after the arrest of Strauss-Kahn, Congressman Paul made a new call for the US to sell its gold reserves by stating, Given the high price it is now, and the tremendous debt problem we now have, by all means, sell at the peak.

Reports emanating from the US for years, however, suggest there is no gold to sell.

New reports coming from the United States show his determination not to go down without a fight as he has hired what is described as a crack team of former CIA spies, private investigators and media advisers to defend him.

On Monday Russia's Central Bank yesterday ordered the interest rate raised from 0.25 to 3.5 percent and Putin ordered the export ban on wheat and grain crops lifted by July 1 in a move designed to fill Russia's coffers with money that normally would have flowed to the US.
