**Subject:** Fwd: diving board specs

The board you picked requires 11'6" depth to be certified by the pool contractor for liability.

Rex

Your attachment tells me nothing.

1. I need a statement from you that the board Jeffrey selected requires certification to the supplier that the pool is 11'6" min.
2. I need two alternatives of boards that will come close to what Jeffrey chose (rolling support)

How about the 1x1 samples?

Gary
