US.docx

Jeffrey,
The latest update on Libya trip, possibility of flying passengers into Malta only, they would take a boat into Libya,. Still waiting on upgrade to 500 Million liability from our insurance if we only travel to Malta, will have that number on Monday,.
here is prelim on trip at this point:

our insurance would only provide 100M liability for travel into Libya, US State Department requires 250 million minimum,.

Rich/Joe,

 At this point  our indication for the flight to Libya is $115,000, of which the hull war is $37,500.  All fully earned.

The Limit of Liability we can offer is $100M All Risk / $100M Third Party War Liability.

 We need to warrant the aircraft is on the ground no more than 4 hrs in Libya.
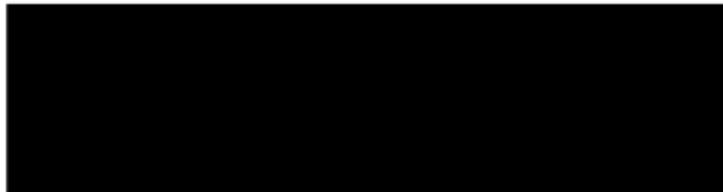

Pls confirm when the aircraft is safely in Malta when able.

 We also would like to know the security for the aircraft while on the ground.

 Regards

Thomas S Moore | **Global Aerospace, Inc.**
