Greetings Mr. Epstein,

I am respectfully requesting your permission to not take photos today. Boyson was very late this morning, and completely messed up the LSJ schedule of runs to and from the island. I will go over tomorrow in the morning and spend whatever time is needed to take photographs of all the work accomplished today and tomorrow.

Danny has requested bringing in Danny Etienne for a two week period to assist him with the rewiring of the Engineering shed bays project and other pending electrical projects that he has on his punch list. Danny Etienne was Danny's electrical helper during his employment on LSJ.

Danny confirmed that this is the only additional help he will need. The existing staff will be able to complete the project on time. He understands that the project must take no more than 10 days, the completion date is August 14, ten days beginning yesterday, excluding Saturdays and Sundays.

Respectfully,

Daphne
