Subject: Atlanta Refrigeration recommendation for air conditioning setting - July 30, 2012

Greetings Mr. Epstein,

Atlanta Refrigeration was on site today. The technician is recommending setting the air conditioning to no higher than 80 degrees. This setting will still allow the air conditioning to properly dehumidify the rooms, prevent the hardwood floors from warping, and combat musty odor.

Does Danny have permission to adjust the air conditioning from 85 degrees to 80 degrees?

Respectfully,

Daphne
