Jeffrey,

I received a \$5,000 offer for the last two Mercury Verado engines "AS IS" sale. The last two are 30" shafts and not advantageous engine length's for twin set up. I have no steering, harness, or gauges to offer in this sale, I was able to get buyer to **\$6,000.00**

I have collected the \$8,000 for the first two engines already, and this would bring your total to \$14,000 total, and shipping cost STT-PBI was \$3,600, so you are ahead, I'd like to get rid of these engines and storage fees. I have the engines listed in the Palm Beach post, and only received one call in two weeks.

do you approve of the sale?

thank you,
Larry
