it makes little sense for you to come here for only two and a half days,, i see no reason that you are leaving again, when things are such a mess

Ok
Will get danny on dimmers in the morning.
Also we are going to punch out the building tomorrow.

Fire Pit;
I just went up and started it;

- gas flames look OK
- Puts off good heat
- controls are difficult to use to get pilot light going
- Remote control works OK after pilot is lit
- Can show you how to use
- If it is OK I will have Brian run the permanent gas line and build box to hold tank

Conclusion; like the gas, do not like that unit. Suggest we look for a better one with controls that work better.

We have grate for wood burning operation;
It is pretty windy up there and embers will fly. If we want to use real logs we probably need to make a custom mesh cover.
Aaran has wood coming.
