Ask Bruce who he suspected of stealing the copper from the ACS

Sorry for all the typos. Sent from my iPhone

Jeffrey;  
White dump truck was operational as of today.

Sandino/ Clutch

1. The ranger needed a new clutch.
2. mechanics ordered a used clutch from Sandino (Aaran)
3. Clutch is now missing. I tend to think it got thrown out during massive engineering cleanup as it was used. There was a whole crew throwing things out. Maybe it was pilfered but is a big piece to get off island and it has limited applications. (only other Rangers)
3. Now LSJ need another clutch and needs to pay Sandino for clutch that was purchased
4. [REDACTED] had asked to hold payment until she got whole story, Aaran was involved and he is off sailing. I will have to discuss with him when he gets back
