I always want all quotes broken out per item via  
Either /charge for each  
Square foot- concrete  
Running foot- sheetrock- walls-+electric runs  
Per actual individual item- ie plants/trees- plumbing- electric sockets- I t  
makes it easier if durinjn the job - you want to add 50 feet its x but u don't  
need 50 feet and want to reduce scope the reduction of \$ was always half of x
