Greetings Mr. Epstein,

The shade cloth is on LSJ. Peter is working on the palms, but will try to complete the shade cloth and deer fencing erections this week.

Danny has two suggestions for alternatives to traditional deer fencing for your review:

1. Install a motion detector with a strobe light - the deer will activate the light and it should frighten them away;
2. Run a strand of electrical fencing through the traditional fencing - it is made for livestock, it is harmless to humans. It delivers a little shock to the deer, and they learn to avoid the area.

Respectfully,

Daphne
