**Subject:** Update

Hi Jeffrey,

I'm in the midst of writing a string of new articles for Business Wire --a different press release company that's picked up by associated press. they will optimize my articles prior to releasing.

Am writing right now about the American Cancer Society--since you donated to them--and cancer cell mutation. Will forward all of these to you shortly.

Would you like to proceed with Reputation Changer? You could try for the first month and if no progress by then, stop. They have a \$7500 first month package and then \$5000 per month after that if client is satisfied.

I need to expand on some of the forum concepts also this week.
