Good morning JE,

I talked to Scott and got his instructions. In addition, I have been on the line with AT&T tech support.

The programming of the MCells has been done correctly, but the support rep stated that the MCells are not syncing with the AT&T service in the Virgin Islands. I am awaiting the new AT&T chips that tech support had mailed to me for installation. (EDA: 4/16/13)

Roy, please verify that the connection to the Ipad docking station is secured. If it is and the problem is still occurring, I can come on the boat after the airport run for Karyna.

Regards

JRuan
