Subject: Please vote for RockPaperRobot's latest table design

Dear Jeffrey,

Please take a minute to support RockPaperRobot by posting/tweeting/voting for our Slide Table (working title) submission to New York's Next Top Makers competition.

The Slide Table is an aesthetic and functional solution to both dining and decor. A variable length table surface, Slide stores flat on the wall to conserve space when not in use and easily slides down and out to serve as a shelf, a desk, or a dining table up to 6 feet long.

Viewer's choice award allows RPR to participate in the Studio Phase from April 2013 to August 2013 and receive \$4,000 for prototyping materials and equipment access.

The \$11K Grand Prize for Most Promising Business is awarded to the Finalist that makes the most progress during the Studio Phase and shows the greatest promise for continued business success.

So help ensure our participation in the competition and vote! It's easy. Simply [click here](#), press the red button that says VOTE, and enter your Facebook or email. Winners are announced on April 1st!!!

Thank you, thank you, a million times thank you,
Jess
