Hi,

4.04 i go to scouting in Moscow and in St-Piterbourg, will visit all the agencies

As far as i have a lot of agencies i work now in Eastern Europe, maybe i can already propose to place their models in NY? because a lot of good girls already placed in paris.

Tell me if i can already earn money this month like this. i have -1000 on account, went sick this month, they thought i have cancer, did so many analysis, all is good but spent all money on it. If someone in paris, like Leon, tell me also,

Best regards,
