Subject: weird question

my billionaire friend now wants to build real AI
unfortunately he has gotten together with AGI people, who look to me like a bunch of
nuts

he wants to fund a meeting of people that I suggest (including young people I would not
know) to discuss how we would build the AI machine we all thought about back in
the day

apart from the obvious "does this make any sense" question, cause I kind of think it does,
I have three questions

- 1- would you want to come to a meeting to plan out what we would do if we had all the
money we could possible need?
- 2- are there people not in this list (ie not my former students) who should be invited?
- 3- are any of them under 50?
