Winslow Burlson [REDACTED]  
from Arizona State, under 50; very bright; Media Lab graduate;  
He is a smart guy. he should be on the list.

The Robot stuff is happening -- that field has progressed by leaps and bounds lately. Young guy. I would invite Edwin Olson from UMich. he has won just about every robot award there is. dancing robots; mobile robots; that sort of thing.

Those two have impressed me.  
Elliot

my billionaire friend now wants to build real AI  
unfortunately he has gotten together with AGI people, who look to  
me like a bunch of nuts

he wants to fund a meeting of people that I suggest (including young people I  
would not know) to discuss how we would build the AI machine we  
all thought about back in the day

apart from the obvious "does this make any sense" question, cause I kind of think it  
does, I have three questions

- 1- would you want to come to a meeting to plan out what we would do if we had all  
the money we could possible need?
- 2- are there people not in this list (ie not my former students) who should be  
invited?
- 3- are any of them under 50?
