Dear Karyna,

I just received the results of the National Boards examinations for January 2013 and learned that you have passed this examination! Congratulations, this was a big hurdle for you to take. Now you can concentrate on your preparations to enter the clinical phase of the curriculum.

Your performance in Oral Histology was fine as well. In the days that we gave grades you would have earned a B. You scored 90 on the written exam!

This was a good start! I look forward to the day that you will receive your Columbia diploma.

Letty Moss-Salentijn, DDS, PhD
