i have someone. first , you said for when you were back feb 13 so that was what i was working towards. stop being oblique and blaming me for it.
the last time i apologize for - in part - i spent about 20 hrs doing SEO with AI and doing stupid grammar changes on your website for nothing.
i put up with your inaccessibility and your fickleness. i will not rehash this with you again.

you are waving the promise of money and ease of life in front of me. i'll have these things to some extent with our without you. but i'll only have you WITH you.
and quite frankly if your opinion of me is based on my follow through on this, then fine. if you don't look at anything else about who i am or what i do and actually appreciate, value or acknowledge anything else in the rest of my life, than what are we?

if you want me to drop all that i have done so far on this, fine. and you can even retract your (previously unrelated) commitment to own a beautiful piece of my work if you want to.
but if you want to have any kind of agreement, then we work together to get you the best result and make you happy.

i may be one of the only other trustworthy women you know who would do this for you with any long term quality and not give a shit about ego, implications, etc.

but i do require trust and respect. and for you to realize that you would be more effective if you were actually not testing me but enabling me to help you.

i love you, je.
i know this concept is foreign to you, so i don't expect you to return it or get it.
no. i do expect that you get it.

ps.
i making another email for these convos even though it's stupid b/c i can't hide any ip info or routing stuff. but anyway. i am making another me. i'll be like Amber something.

there is no excuse. i will send you something. jesus. i have done research and am working on it.
you are being ridiculous.

please don't speak to me like that.

understand this is 100% separate from any table sale. i have a business partner who does our finances and we are launching a working start-up.

you'll hear from me from a different email next most likely....but threaten me again (in such an ambiguous way) and i'll stop teaching you about how to have an actual friend.

plus, your punctuation is abysmal.
