Ion is asking if he should stay longer so that he can finish all the cracks. Valdson leaves for Brasil on Friday so he would have to explain to Ion how to secure the apartment on his departure.

hi [REDACTED],

..how are you? ..i checked the entire house today with valson and i notice a lot of cracks..some are smaller some are bigger..

there is a bathroom and a hallway with like kandinsky painting on the walls - there are cracks too i think i need a few more days to do at least the bigger cracks.

so what should i do? should i stay longer and continuing working or leave friday and come back other time?

both ways are ok for me

thank you,
ion
