Would love to participate. Do you want me to participate as an NSF person, I.e., report back to NSF? Or just as a researcher?

Janet

my billionaire friend now wants to build real AI
unfortunately he has gotten together with AGI people, who look to
me like a bunch of nuts

he wants to fund a meeting of people that I suggest (including young people I
would not know) to discuss how we would build the AI machine we
all thought about back in the day

apart from the obvious "does this make any sense" question, cause I kind of think it
does, I have three questions

1- would you want to come to a meeting to plan out what we would do if we had all
the money we could possible need?

2- are there people not in this list (ie not my former students) who should be invited?

3- are any of them under 50?
