These guys were pretty nasty even before they found this, and it only supports all their accusations. I tried funny and light with most of the previous issues and the response was that I don't take the profession seriously.
I've been able to get some comments removed by telling the forum leader that they brake their own terms and conditions, but they refused to remove the whole thread or my name. I could try saying they should expect a lawyer to contact them...I think they are a bit nervous that sex slave may not be me and I could sue for defamation. Can I sue dealbraker and Gawker?

Is there a PR person I can use to deal with this?
