**Subject:** 90 New Classes and 29 New Schools

## Hello, Hola, Bonjour Courserians!

What a month February has been! We're welcoming [29 new universities](#) to Coursera. This is an extremely exciting announcement for us, not only because we're nearly doubling the amount of schools offering courses on our platform, but also because of the diverse learning opportunities that these schools will bring to Courserians around the world. For the first time, non-English courses across many topics will be offered in languages like French, Spanish, Chinese and Italian!

## News and Updates

Aside from working to get these new universities on board, we've also been expanding ways that students can receive credit and more recognition for their work, including offering [credit recommendations](#) from the American Council of Education (ACE).

Coursera was also recently listed among Fast Company's "[World's 50 Most Innovative Companies](#)" for 2013. A warm thank you to all of our incredibly universities, professors and students for your continued participation and support.

We did it together, everyone! Thanks to all of your votes,

Coursera won the Crunchies "Best New Startup Of 2012" award.

---

## Your Coursera Community

As our student base of 2.7 million quickly grows, we'll be sharing information and opportunities with you to get you even more involved in shaping the evolution of our community, programs and culture. For fun, [our team](#) made a visualization of Coursera's global community, check it out!

## Courses You Can Take

### Networks: Friends, Money, and Bytes

Princeton University  
2/4/2013  
12 weeks

### The Modern and the Postmodern

Wesleyan University  
2/4/2013  
14 weeks

### The Language of Hollywood: Storytelling, Sound, and Color

Wesleyan University  
2/4/2013  
5 weeks

### Bioelectricity: A Quantitative Approach

Duke University  
2/4/2013  
9 weeks

### Algorithms, Part I

Princeton University  
2/4/2013  
6 weeks

### Analytic Combinatorics, Part I

Princeton University  
2/8/2013  
5 weeks

### Compilers

Stanford University  
2/11/2013  
11 weeks

### Clinical Problem Solving

University of California, San Francisco  
2/11/2013  
6 weeks

### Analyse Numérique pour Ingénieurs

École Polytechnique Fédérale de Lausanne  
2/18/2013  
7 weeks

### Digital Signal Processing

École Polytechnique Fédérale de Lausanne  
2/18/2013  
8 weeks

### Linear and Discrete Optimization

École Polytechnique Fédérale de Lausanne  
2/18/2013  
7 weeks

### Computational Investing, Part I

Georgia Institute of Technology  
2/22/2013  
8 weeks

### Natural Language Processing

Columbia University  
2/24/2013

### Financial Engineering and Risk Management

Columbia University  
2/24/2013

### Aboriginal Worldviews and Education

University of Toronto  
2/25/2013

### Introductory Human Physiology

Duke University  
2/25/2013  
12 weeks

10 weeks

10 weeks

4 weeks

**AIDS**

Emory University  
2/25/2013  
9 weeks

**Games without  
Chance:  
Combinatorial  
Game Theory**

Georgia Institute of  
Technology  
2/25/2013  
7 weeks

**Introduction to  
Engineering  
Mechanics**

Georgia Institute of  
Technology  
2/25/2013  
5 weeks

**Women and the  
Civil Rights  
Movement**

University of Maryland,  
College Park  
2/25/2013  
12 weeks
