Subject: waltson

waltson wanted to discuss 2 things:

1) his vacation - he wants to go after our stay in paris, he cannot organize his trip now - and he has tickets that he would either have to cancel or change (he is not sure it is possible to change them..)

2) reparation works in the apt - he said he found some ppl, the work will take 5 weeks, he said "it was not a god idea to hire someone from America" etc... and that it was not just painting, some "more complicated things".. he said it would be 30-40% percent less expensive that Pinto ppl, but did not have the exact price
