Best Buy in Palm beach was sold-out on Logitic900 remotes, Rich Kahn ordered thru Amazon and remote is expected to be delivered today direct to Rich.

Mini system:

I found a very simple, small Bose System ( see link below) I liked which is a Fiber Optic cable connected to Optical output on TV, contains Two satellite speakers and smaller sub woofer we may be able to fit under seat in Kitchen with small wood modification. its a simple good speaker extension for sound in LSJ kitchen system.

do you like this idea?

thank you,

Larry
