the easiest way to rectify the mess, is for bill to take the first five percent (gives him the Larson return) and you THE NEXT TEN then split . after that . this is on a year. by year basis so in my example, 10 goes to 20 in THREE years. still aggressive, bill takes 5 % per year, or a total of 1.5 , you take 3, then you split the 5.5. 60/4- and you get 2.2 for a total of 5.3. before tax,
