Subject: Paris Apartment

I went through the house with Valdson and we discussed the following:

Speakers in Gym - He says someone came to wire the speakers after your last visit as they had not been working correctly. They are now working.

Paint Damage in Gym - There is some damage to the paint on the gym wall where the stereo equipment is kept. There is also damage on the other side of the wall in the guest toilet. It looks like there is some dampness in the wall. Valdson says there is a possibility that insurance will cover this. He feels that we can wait a little while longer with this and feels that it is first priority to do the upstairs little bedroom.

Upstairs Bedroom and little office - Both of these areas need to be painted. Valdson thinks it will take 4-5 weeks. The corridor in between also has some damage but Valdson thinks it can wait a while longer. He says we cant just do a little part of the corridor, we will have to do the stairwell as well to avoid any differences in color. How should we proceed? Should Valdson get a quote from the people he says have done work for him before?

Steam room next to massage - He said he had the company who did the steam room have a look at it and they say they cant increase the pressure/amount of steam. They are going to phone the manufacturer and see if there is anything they can do. Valdson says they will let him know mid January
