**Subject:** Midnight Demo

Jeffrey,

Midnight demo ride went well,

- driver is short and can't see over the center console,. I informed John there is a 4" comfort foam floor pad that is 4" in height which would give him better visibility over bow,.

-John needs to price interior cost to complete the cutty cabin with 20" tv monitor, carpet and cushions for his family.

buyer was impressed with Ride, engines and handling,. really liked the boat,. he will be in touch with us once he figures his cost to complete the boat ref cost exposure for these items,.

thx

Larry
