Ok toboth

On Tuesday, January 8, 2013, Larry Visoski wrote:

Jeffrey,
I have been approved to land on st John Medical center, Landing fee donation is \$100.00

-Boeing 727,. when I ran the engines on the Boeing on Sunday, the center MFD EFIS tube (Mulit Function Unit) did not power up, I have a spare EFIS tube in the Boeing, and it do not fix the problem,,,the other main component is the "Symbol Generator" located in Belly of aircraft, I removed the unit and cleaned the pins, still does not work,,,,the overhaul exchange of this unit is \$21,000, I prefer to fly the Boeing to Palm Beach with MFD inop, since I have 4 other EFIS tubes to display weather, and let Avionics shop trouble shoot further before spending \$21k and replacing the Symbol Generator box,.
Dave will bring the exchange FMS unit on airlines tomorrow and will install at that time, Crew will arrive Wed at 2PM.

thank you,
Larry
