I went to the passport office. They said i need an application form from my employer which says that this is for urgent businnes purposes (2 sentenses, name company, signature). Then i will get after 2 weeks temprorary pasport, valid max 3 months. I can also request fast track but they cant promise to make it fast. I have to do it tomorrow if you can write short application for me. Let me know please... have a great day :)
