Woody just phoned me.

Said: he had originally thought you were busy 4th July because you hadn't been able to go to Paris when they discussed it. Therefor they went ahead and made other plans for the 4 th July.

(he sounded like he felt a little bad about it.)

He is thinking that you all could still do something middle to end august. He mentioned the word Europe.(but not exactly in a full sentence) He said his film is scheduled to end on the 15th august. It could and probably will run a couple of days over/extra

I told him you had your cell on you.
